The two associations were in session at New Orleans from October 20 to 25. Two thousand delegates were present for the National Dental Association, representing the various dental associations.

Doctor and Mrs. Miller arrived home this morning, after attending all the session and spending two weeks away from home. On their way back they stopped at Independence, Kan., to visit Mrs. Miller's sister, Mrs. Ed Owens.

JUDGE J. M. DAWSON TRIES K. C. LETTER CARRIER CASE

Sits as Special Judge When Judge Porterfield Steps Out; Fourteen Continuances

Judge John M. Dawson of this city is sitting as special judge in the trial of Samuel E. Graham, former treasurer of the National Association of Letter Carriers, in Kansas City this week. The case started Monday. Judge Dawson is sitting for Judge Porterfield, who disqualified himself after the case was sent to his court.

The following is from today's Kansas City Journal about the case:

The trial has been continued fourteen times since Graham's arrest in June, 1916, many of the continuances being granted because of the absence of Frank P. Walsh, Graham's chief counsel, who was a member of the war labor board, and who later was in Paris in the interest of Irish independence.

When the case was called yesterday, Mr. Walsh announced he was ready for trial. Hunt C. Moore, prosecuting attorney, and Edward J. Curtin, assitant prosecutor, are representing the state. Mr. Walsh filed a motion to quash the amended indictment, on the ground that Graham had not been given a preliminary hearing. It was overruled. The selection of the jurors will be completed this morning.

Nodaway Observes With Great Success International Rally Day; Report Tabulated

Despite bad weather, all records for Sunday school attendance in Nodaway county were smashed to flinders Sunday, when a grand total of 5,536 reported, and 5,761 estimated, attended the Protestant Sunday schools of the county in response to the appeal that had been sent out to make the occasion an international Go-to-Sunday-School rally day.

The five Protestant churches of Maryville registered 1,541 for the county's total. The five country Protestant churches in the township brought the total for Polk up to 1,814, nearly a third of the total for the county.

Governor Gardner's proclamation setting aside the day for special observance was published well in the county, and all of the churches responded to the appeal to work up the best attendances possible. In most cases the program suggested by the state Sunday school association was followed in the churches here.

The tabulated report for the county as gathered by G. B. Roseberry, president of the county Sunday school association, and Miss Eva Davis, secretary of the association, is as follows:

S. E. MO. TEACHERS OPPOSE AFFILIATION WITH A. F. L.

Endorse Plan for Independent Organization; Would Confer With the Legislators

St. Louis, Oct. 28.—Interest in educational circles centers in the question of organizing the teachers of the state of Missouri and affiliation of their organizations with the American Feedration of Labor.

One of the first branches of the association to vote on the question was the Southeast Missouri Teachers' Association, which, in convention at Cape Girardeau, Saturday, decided against affiliation with the American Federation of Labor aid endorsed a plan said to be favored largely in the state association, for a strong organization of teachers, independent of all other labor unions.

The convention also accepted the proposal of the Southwest Missouri Teachers' Association that all candidates for the legislature be invited to discuss with the teachers plans for pay increases.

The St. Charles county teachers also voted against affiliation with the American Federation of Labor, Saturday.

FISH YARN? THERE IS ALWAYS ONE BETTER

(By International News Service)

London, Oct. 28.—That is the worst of those fish stories. Somebody always comes along with a better one.

Recently the Evening News told the V. A. D.'s story of the frozen fish that came to life in the cooking pot. Then a correspondent — a naval officer, it should be said—easily puts that to shame.

"An interesting experiment was tried some little time ago," he writes to us, "with an ordinary herring.

"The fish was put into a large bowl of salt water and every day a small quantity of the water was removed and an equal quantity of 'fresh' was substituted, until eventually the fish lived and thrived in purely fresh water.

"The owner was so pleased with the success of his experiment that he then tried removing a very small quantity of water daily until the bowl was empty, and found that the herring did excellently, entirely without water, and as he was so lively in the empty bowl he had to put him in a cage.

"Here he lived happily, hopping from perch to perch just like a bird, until one day some sudden noise startled him and he fell into his water trough —and was drowned."

The Cabool Enterprise-Press adds $1,000 worth of machinery and type to its plant.

GOV'T. OPTIMISTIC ABOUT THE STRIKE

THIS IS DESPITE ASSERTIONS THAT MINERS WILL QUIT

LABOR CIRCLES GLOOMY

John Lewis, Acting President, Declares Workers Have Made Their Final Decision

Washington, Oct. 28.—Despite repeated assertions of John Lewis, acting president of the miners, that the coal strike must and will go into effect at midnight Friday unless the operators make concessions which they insist they will not make, government circles today remained optimistic. In labor circles, however, the feeling is not shared to any marked degree, and it is predicted the strike will be called on schedule time and may spread to other fields. The cabinet today was to continue the work of laying plans for government action in event of the strike.

Indianapolis, Oct. 28.—Optimism over the threatened strike is not rampant at the mine workers' headquarters today. Miners' officials refused to discuss the coal crisis.

Springfield, Oct. 28.—Insisting that it was the last chance and there will be no change of the coal miners toward the proposed strike until the operators have indicated a willingness to deal fairly with them, John Lewis, miners' president, left this morning for Indianapolis. "We've played our play. It is now the operator's move," was his parting shot.

Washington, Oct. 28.—Director-General Hines took steps today to increase the cars available for moving coal by issuing orders effective immediately. Where cars are not unloaded by consignee within twenty-four hours after delivery, the coal will be dumped on the ground.

WHY is it that more and more smokers (millions now) are getting together with Chesterfields?

First of all, fine tobaccos. Our own buyers in the Orient send us the pick of the finest Turkish varieties (Xanthi, Cavalla, Smyrna and Samsoun). We blend these by a *secret method* with specially choice Domestic leaf.

This method brings out new qualities of flavor—a smoothness, a richness, a mellowness that go right to the spot. That's the reason Chesterfields *satisfy*.

And remember—"Satisfy" is Chesterfield's secret, based on our own private formula, which *cannot be copied*.

MISSOURI COAL SITUATION PROMISES TO BE SERIOUS

Great Hardship Feared by Former Fuel Administrator; Price Raising Nipped in the Bud

St. Louis, Oct. 28.—With the impending strike of soft coal miners only three days off, the coal situation in Missouri has assumed a serious aspect.

The seriousness of the situation was voiced by Lieutenant Governor Wallace Crossley, former Missouri fuel administrator, who declared: "The fuel outlook for Missouri is not at all cheerful, and if there should be a cessation of coal mining November 1, for even a short period, industry would suffer and great hardship would result."

Reports from mines in nearby Illinois points today indicated that a great run on the mines is in progress in anticipation of the strike. Consumers from both Illinois and Missouri towns are drawing from the mines direct, in many instances hauling coal in wagons and every other kind of vehicle, in many cases long distances, in an effort to stock up. A shortage of cars and efforts of railroads running to these mines to themselves lay in a supply in anticipation of coalless days has curtailed the output considerably it was reported.

From nearby points reports pour in of short supplies on hand. In St. Louis, it was claimed, there is not more than 50,000 tons stored up—hardly enough to last the city a week—and reports indicate there are similar shortages in adjacent towns and cities.

In the face of the large demand and anticipation of a price boost at the mines many Missouri dealers declare this week boosted from $1 to $1.50 per ton. But they did not get by with it.

Operators representing approximately 75 mines of the fifth and ninth districts, which supply Missouri, met here yesterday afternoon and nipped the price boosting of the dealers in the bud by adopting a fixed scale of prices for coal at the mines. These prices are, for all domestic grades, not more than $3.25 per ton; for mine run, not more than $3; and for screenings, not more than $2.25. The operators warned dealers that a fine of $5,000 is provided for charging of unreasonable prices, in the anti-profiteering bill, which becomes effective Tuesday. The operators expressed the opinion that dealers would probably refund the overcharges already collected.

The meeting was held as a result of a conference between operators and A. J. Maloney of Chicago, fair price fixer for coal in the state of Illinois, when what was expected of operators was outlined.

Johnson Dinner.

Mrs. Ina Johnson entertained the following at dinner this noon: Mr. and Mrs. Clint McMullin, Mrs. Charles Shopbell, Tommie Shopbell, Florence and Lula Johnson, Mildred McMullin, Lela Maude Beattie and Carl Johnson.

Virgil Jackson, former News-Press reporter and veteran of the world war, has entered George Washington University at Washington, D. C., where he is taking a course in journalism.—St. Joseph News-Press.

Mrs. Fred I. Dunn of Bolckow came yesterday noon to spend the week with her sister, Mrs. W. C. Frank, and other relatives.

THOUGHT MAN WAS CRAZY.

"I have suffered from stomach and liver trouble for years; the last two years people have been calling me crazy. The doctors could not do anything for me. The awful bloating of gas seemed to press against my brain and I could not think clearly. Three months ago a friend advised taking Mayr's Wonderful Remedy, and it has worked wonders in my case. All my bloating and suffering is gone and I feel as though newly born." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Sold by the Maryville Pharmacy and druggists everywhere. (Adv)

Mr. and Mrs. Dell Hyde of Pickering motored to Lenox, Ia., last Wednesday and spent the day with their son, Virgil Hyde, and family. The latter accompanied them home, returning to Lenox Thursday.

Mr. and Mrs. Walter Mutz returned to Maryville last night from a visit of several weeks with relatives at Sioux City, Iowa, and in Nebraska.

A Wage Earner

who has a checking account at this bank, depositing his salary each week and paying his bills by check, has found that while this method helps him to make both ends meet, he has not been able to save much.

About three months ago he decided to open a savings account, and put a small part of his wages in the savings account each week.

He is still paying his bills by check and has been able to pay all his expenses and he has $50 in the savings account.

This $50 is "velvet." It is growing all the time and it is drawing interest at the rate of 4 per cent compounded semi-annually. Six months from now he will have $150 saved and $2 interest and six months after that he will have $250 and about $5 interest if he keeps on at the same rate.

It will amount to about $2500 in ten years.

He Almost Starved.

"I nearly starved to death while in that jail," complained S. M. Chaney, blacksmith, of Hopkins, in Justice Forgrave's court today, says the Friday St. Joseph News-Press. "They only serve you two meals a day, and such meals! Say, you won't catch me back there again!"

The magistrate explained that the sheriff was giving the best service he could, with an allowance of 30 cents a day per prisoner ,and that it's not possible to buy much of a meal these days for 15 cents.

Chaney pleaded guilty to a charge of trick and was fined $1 and costs, which he paid. The original information charged a felony—that of passing a worthless check for $30, August 8, 1918—but with the help of relatives he made good the amount and was permitted to plead to a misdemeanor. The prosecuting witness was Dr. L. A. Cleveland, 506½ Edmond street.
